

# Instructions: Ball Floor Lamp

- 1. Gather all components:**  
(12 x Floral Pods, 30 x nut/bolts, 1 x lamp holder.)

- 2. Identify pod containing lamp holder. Screw lamp holder firmly onto pod utilising nut and washers already in place.**

- 3. Select new pod piece. Align hole at base of pod arm with similar hole on pod incorporating lamp holder. Join pods using nut and bolt. NB. Pods should face outwards.**

- 4. Select new pod piece. Align hole at base of a pod arm with the next available hole on "lamp holder" pod. Join using nut and bolt. Next, align holes of the two pods now attached to "lamp holder" pod and join using nut and bolt.**

# Instructions: Ball Floor Lamp

5. **Repeat Step 4 three more times. Ensuring new pod is joined to “lamp holder” pod and adjacent pod each time at base of pod arm.**

6. **“Lamp holder” pod should now have 5 pods attached. Close “lamp holder” pod by folding consecutive arms of pod behind one another.**

7. **Flip assembly over. Join last two pods to close demonstrated opening to create lower half of Ball Floor Lamp.**

8. **Install globe. Put assembly aside.**

# Instructions: Ball Floor Lamp

9. **Select 2 pod pieces. Align as shown with pods facing outwards. Join using nut and bolt.**

10. **Select new pod piece. Align holes at base of adjacent pod arms with pods joined in Step 9. Join using nut and bolt.**

11. **Repeat Step 10 , 3 times around a “central pod”, as per steps around “lamp holder” pod.**

12. **“Central” pod should now have 5 pods attached. Close “central” pod by folding consecutive arms behind one another**

# Instructions: Ball Floor Lamp

13. **Flip assembly over. Join last two adjacent pods, as per Step 7, to create top half of Ball Floor Lamp.**

14. **Align holes of top half and bottom half of Ball Floor Lamp. Starting at one side and working around sides of ball join top sphere to bottom sphere using nuts and bolts.**

15. **Close all pods.**

16. **Plug in and enjoy.**
